The first PCR-module under consultation

The first PCR-module to undergo open consultation is "Grain Mill Products" for CPC division 23. The drafts for two more PCR-modules are displayed in the PCR-forum, namely "Electrical Machinery and apparatus", CPC division 46, and "Dairy products and egg products" CPC division 22.

EPD Statistics: the effect of the launch of the international EPD®system

The recent rearrangement of the EPD organisation with the launch of the international EPD®system leads to a wide change in the EPD distribution by Countries and sectors. Adriana Del Borghi and Michaela Gallo at the University of Genova have written an article about the effect of the launch of the international EPD®system in EPD statistics.
